THE NATIONAL ACADEMIES  Smithsonian Institution

2005 NSRC NATIONAL ADVISORY BOARD

Chair

D. Carr Thompson
Senior Program and Communications Officer
Burroughs Wellcome Fund

Members

Jorge E. Allende
Professor, Institute for Biomedical Research
Faculty of Medicine, University of Chile

Cathleen Aubin Barton
US Education Manager, Intel Corporation

Elwyn Berlekamp
Professor, Department of Mathematics
University of California, Berkeley

Diane Bernstein
President
Diane and Norman Bernstein Foundation

Sandra R. Dust
Manager, Pre-College Education & Corporate
Communications
The Dow Chemical Company

Debra Felix
Program Officer
Pre-college Science Education Initiatives
Howard Hughes Medical Institute

Guillermo Fernández de la Garza
Executive Director
US-Mexico Foundation for Science

Randolph J. Guschl
Director, Center for Collaborative Research &
Education
DuPont

Samuel H. Houston, Jr.
President and CEO
North Carolina Science, Mathematics and
Technology Education Center

Stephen P. Klein
Senior Research Scientist
RAND

Elizabeth Lodal
Principal
Thomas Jefferson High School for Science and
Technology, Virginia

Kenneth B. Miller
Alumni Co-Chair, Education Committee
Smithsonian Institution National Board

C. Ford Morishita
Biology Teacher, Clackamas High School
Clackamas, Oregon

Kerstin Reimstad
Project Manager
The Royal Swedish Academy of Sciences and
City of Linköping

Cristián Samper
Director, National Museum of Natural History
Smithsonian Institution

Dennis Schatz
Vice President for Education
Pacific Science Center

Richard D. Stephens
Senior Vice President, Internal Services
The Boeing Company

John D. Tully
Director, Community Relations
Michelin North America

Meredith (Peggy) Harris Willcuts
Elementary Science Coordinator/
Science Specialist
Walla Walla Public Schools, Washington

National Academy of Sciences

Sally Goetz Shuler
Executive Director
National Science Resources Center

April 25, 2006

Mr. Peter Silva
Vice President, Curriculum Division
Carolina Biological Supply Company
2700 York Road
Burlington, NC 27215

Dear Mr. Silva:

The purpose of this letter is to confirm that Carolina Biological Supply Company is the exclusive publisher and licensed distributor of both National Science Resources Center (NSRC) programs –Science and Technology for Children® (STC) and Science and Technology Concepts for Middle Schools™ (STC/MS). Carolina Biological Supply Company is the only company to collaborate with the NSRC in developing the STC units and STC/MS modules. The NSRC worked closely with Carolina Biological Supply Company in selecting and designing materials that meet the performance and durability requirements for each STC unit and each STC/MS module. When teachers implement either the STC or the STC/MS program, it is important for them to use materials that meet these requirements, because even a slight variation in an item may affect the results of a classroom science activity.

Carolina Biological Supply Company is the only company licensed to sell the STC Teacher's Guides and Student Investigations Books and the STC/MS Teacher's Guides and Student Guide and Source Books. The STC and STC/MS kit materials offered by Carolina Biological Supply Company meet all the requirements of our science units. Any materials offered by other suppliers have not been reviewed or approved by the NSRC.

The NSRC values its partnership with Carolina Biological Supply Company in producing the STC and STC/MS programs. We look forward to continuing to bring high-quality, inquiry-centered science education materials to school districts across the nation.

Sincerely,

Barbara Thomas
Director for Communications and Publications, NSRC

Cc: Sally Goetz Shuler, Executive Director, NSRC
